

2024 ISOE International ALARA Symposium Kyoto, Japan, October 1-3, 2024

First Announcement Call for Papers

Organization and Host

The 2024 ISOE (Information System on Occupational Exposure) International ALARA Symposium will be held **from October 1 to 3, 2024 in Kyoto, Japan**. The symposium is organized and hosted by the ISOE Asian Technical Center (ATC) and Nuclear Safety Research Association (NSRA), and co-sponsored by the OECD Nuclear Energy Agency (NEA) and the International Atomic Energy Agency (IAEA).

Background and Objectives

The Symposium will provide a forum for radiation protection professionals from nuclear industries and regulatory authorities to exchange practical information and experience on occupational exposure issues in nuclear power plants to improve the optimization of radiological protection.

Language

The working language of the Symposium is English.

(Japanese/English simultaneous interpretation will be provided for Japanese participants)

Participants

The symposium is open to all radiation protection professionals and all those concerned with occupational radiological protection, including Nuclear Power Plant (NPP) owners and operators, NPP designers, industry associations, regulatory authorities and their technical support organizations, research organizations, and observers from OECD/NEA and IAEA member countries.

Registration fee

No registration fee is charged.

Dates and Location

The symposium will be held from **October 1 to 3, 2024 at Kyoto Research Park in Kyoto City, and Tsuruga Power Station in Tsuruga City, Japan**. The first day of the symposium will start at 13:00, and the welcome reception will be held in the evening. A technical tour to **Tsuruga Power Station (The Japan Atomic Power Company)** is scheduled on **October 3, 2024**. More detailed information about the tour will be provided soon.

Website

NSRA <http://www.nsra.or.jp/index-e.html>

Kyoto Research Park <https://www.krp.co.jp/english/>

Tsuruga Power Station (The Japan Atomic Power Company)

Accommodation

Participants are responsible for making their own hotel reservations. If you need any assistance to find a hotel, please feel free to contact us.

We recommend you to reserve your hotel earlier, as there will be a lot of tourists in autumn in Kyoto city.

Registration

All persons wishing to participate in the Symposium are requested to register in advance by sending their registration forms **no later than August 2, 2024**.

Registration forms can be submitted by email to “atcsympo@nsra.or.jp”.

* The first 35 participants will be able to participate in the technical tour at Tsuruga Power Station. We recommend early booking.

Call for papers

Participants are invited to deliver oral presentations covering all aspects of practical implementation of radiation protection for occupational exposure management at nuclear facilities. Topics of interests include:

- RP at the Decommissioning Stage
 - Plant Life Extension Activities
 - RP Education and Training
 - Regulations for restarting nuclear reactors
 - RP Management and Organization
 - ALARA Management
 - Work Management Experiences
 - Dosimetry and Measurement Materials
 - Internal Dose Management
 - Contamination Management
 - RP at the Design and Construction Stages of new NPPs
 - RP and Waste Management
 - Source-Term Management
- Among above topics, papers related to “RP at the Decommissioning Stage”, “Plant Life Extension Activities” and “RP Education and Training”, “Regulations for restarting nuclear reactors” should be highly welcomed as recent topics of radiation protection.

Presentation material submission

The submission due date for the title and **150-250 words** abstract of presentation is **September 13, 2024**. The submission due date for presentation material is **September 20, 2024**.

- The text of the presentation and abstract should be written in English.
- Estimated time for one presentation will be **25 minutes** including 5 minutes question & answer. If you need more time, please ask us beforehand.
